Profile

I am a passionate web developer with over nine years of experience specialising in WordPress. My journey started with a simple blog and evolved into developing complex websites for diverse clients. I work majorly on custom WordPress plugin development and have honed my skills in PHP, JavaScript, HTML, and CSS through real-world application.

My experience spans theme and plugin development, site optimisation, and custom functionality implementation. I have a proven track record of delivering projects that enhance user experience and meet business goals. One of my key strengths is my ability to troubleshoot and solve problems efficiently, ensuring sites run smoothly and securely.
